### **DETAILED ACTION**

This is the third Office Action based on the 10/544167 application filed July 29, 2005. Claims 1-18 and 20-27 as presented November 3, 2008 are currently pending and considered below.

#### ***Allowable Subject Matter***

1. Claims 1-18 and 20-27 as presented November 3, 2008 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose, either singly or in combination, the claimed drug delivery infusion device comprising an injection means in connection with a reservoir, the expulsion from which is controlled by pressure-generation means, which are further coupled to a liquid-filled control chamber which serves to constrain the motion of the pressure generation means, thereby controlling the drug infusion rate, wherein the liquid-filled control chamber is associated with a means for controlled depletion of the liquid therein and whereby depletion of the liquid in the control chamber enables the pressure-generation means to drive a drug from the drug reservoir.
3. The closest prior art of record is USPN 6,186,982 to Gross et al, however this reference fails to teach or disclose the device as claimed or described above.
4. Regarding claim 1, Gross et al teach an injection system having an injection means in connection with a reservoir, the expulsion from which is controlled by

pressure-generating means, which are further coupled to a liquid-filled control chamber, but Gross et al fail to teach or disclose a means for controlled depletion of a liquid from the liquid-filled control chamber in order to enable to pressure-generation means to drive a drug from the drug reservoir.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
